ERRORS	SOLUTIONS
<p>1. <b>Error:</b> Bad value <code>button</code> for attribute <code>type</code> on element <code>a</code>: Subtype missing.</p> <p><a href="#">From line 31, column 13; to line 32, column 30</a></p> <pre>&lt;a href="https://www.deafcouncil.org.uk/deaf-awareness-week/" target="_blank" class="btn btn-primary btn-da" type="button"&gt;</pre>	<p>Solved by removing the 'btn-da' which was not required. The 'type="button"' was also removed as wasn't required when using 'btn' or 'btn-primary' from Bootstrap</p>
<p>2. <b>Error:</b> Stray end tag <code>div</code>.</p> <p><a href="#">From line 43, column 17; to line 43, column 22</a></p> <pre>&lt;/a&gt;&lt;/div&gt;</pre>	<p>A closing &lt;/div&gt; tag was entered by mistake. This was deleted.</p>
<p>3. <b>Error:</b> End tag <code>section</code> seen, but there were open elements.</p> <p><a href="#">From line 78, column 5; to line 78, column 14</a></p> <pre>/div&gt; &lt;/section&gt; &lt;</pre>	<p>An open &lt;div&gt; tag needed to be closed which I did with a &lt;/div&gt; tag.</p>
<p>4. <b>Error:</b> Unclosed element <code>div</code>.</p> <p><a href="#">From line 73, column 9; to line 73, column 28</a></p> <pre>&gt; &lt;div class="darken"&gt;</pre>	<p>&lt;div class=""&gt; opened and not closed – see error 3.</p>
<p>5. <b>Error:</b> Bad value <code>target</code> for attribute <code>target</code> on element <code>a</code>: Reserved keyword <code>target</code> used.</p>	<p>An incorrect target was written in the code. I changed the "_target" to "_blank" to direct the website to open on a new tab.</p>

<p><a href="#">From line 109, column 21; to line 110, column 48</a></p> <pre>&lt;a href="https://en.wikipedia.org/wiki/British_Sign_Language" target="_target" class="btn btn-primary"&gt;Find o</pre>	
<p><b>6. Error: Duplicate ID</b> subheading-text.</p> <p><a href="#">From line 120, column 17; to line 120, column 41</a></p> <pre>&lt;h2 id="subheading-text"&gt;Our Co</pre>	<p>I had used an id="subheading-text" but then reused this in the code on the same page. Changing this to a class allowed me to reuse this CSS multiple times on all pages.</p>
<p><b>7. Warning: The first occurrence of ID</b> subheading-text <b>was here.</b></p> <p><a href="#">From line 83, column 17; to line 83, column 41</a></p> <pre>&lt;h2 id="subheading-text"&gt;Commun</pre>	<p>I had used an id="subheading-text" but then reused this in the code on the same page. Changing this to a class allowed me to reuse this CSS multiple times on all pages.</p>
<p><b>8. Error: Bad value</b> assets/images/logos-images/adult learner.png <b>for attribute</b> src <b>on element</b> img: <b>Illegal character in path segment: space is not allowed.</b></p> <p><a href="#">From line 123, column 17; to line 123, column 118</a></p> <pre>&lt;img class="subheading-image" src="assets/images/logos-images/adult learner.png" alt="Online Learner"&gt;</pre>	<p>I didn't know how this error was occurring and I found it very difficult to find out what was causing the issue. However, I deleted the original image, deleted the code and tried again but used "adult-learner.png" rather than "adult learner.png".</p>
<p><b>9. Error: No</b> p <b>element in scope but a</b> p <b>end tag seen.</b></p> <p><a href="#">From line 139, column 17; to line 139, column 20</a></p> <pre>&lt;/P&gt;</pre>	<p>I had changed a &lt;p&gt; paragraph to a header but forgot to delete the end &lt;/p&gt; end tag.</p>

<p><b>10. Error:</b> Bad value <code>_target</code> for attribute <code>target</code> on element <code>a</code>: Reserved keyword <code>target</code> used.</p>	<p>An incorrect target was written in the code. I changed the “_target” to “_blank” to direct the website to open on a new tab.</p>
<p><a href="#">From line 141, column 21; to line 141, column 79</a></p> <pre>&lt;a href="lessons" target="_target" class="btn btn- primary"&gt;Find o</pre>	
<p><b>11. Error:</b> Duplicate ID <code>subheading-text</code>.</p>	<p>I had used an id=“subheading-text” but then reused this in the code on the same page. Changing this to a class allowed me to reuse this CSS multiple times on all pages.</p>
<p><a href="#">From line 150, column 17; to line 150, column 41</a></p> <pre>&lt;h2 id="subheading-text"&gt;Our Co</pre>	
<p><b>12. Warning:</b> The first occurrence of ID <code>subheading-text</code> was here.</p>	<p>I had used an id=“subheading-text” but then reused this in the code on the same page. Changing this to a class allowed me to reuse this CSS multiple times on all pages.</p>
<p><a href="#">From line 83, column 17; to line 83, column 41</a></p> <pre>&lt;h2 id="subheading-text"&gt;Commun</pre>	
<p><b>13. Error:</b> Bad value <code>_target</code> for attribute <code>target</code> on element <code>a</code>: Reserved keyword <code>target</code> used.</p>	<p>An incorrect target was written in the code. I changed the “_target” to “_blank” to direct the website to open on a new tab.</p>
<p><a href="#">From line 171, column 21; to line 171, column 78</a></p> <pre>&lt;a href="tutors" target="_target" class="btn btn- primary"&gt;Find o</pre>	
<p><b>14. Error:</b> Duplicate ID <code>navbarSurpportedContent</code>.</p>	<p>I decided to reuse the &lt;nav&gt; elements within the footer of each webpage but then encountered error number 14. I changed both this id and the reference it linked to. I changed the id to id=“ navbarSurpportedContent2”</p>
<p><a href="#">From line 190, column 13; to line 190, column 99</a></p>	

<pre>&lt;div class="collapse navbar-collapse justify-content-end" id="navbarSurpportedContent"&gt;</pre>	
<p><b>15. Warning:</b> The first occurrence of ID <code>navbarSurpportedContent</code> was here.</p> <p><a href="#">From line 50, column 13; to line 50, column 99</a>  <pre>&lt;div class="collapse navbar-collapse justify-content-end" id="navbarSurpportedContent"&gt;</pre></p>	<p>I decided to reuse the &lt;nav&gt; elements within the footer of each webpage but then encountered error number 14. I changed both this id and the reference it linked to. I changed the id to id=" navbarSurpportedContent2". This error is near the top of the body of the html code.</p>
<p><b>16. Error:</b> Attribute <code>alt</code> not allowed on element <code>a</code> at this point.</p> <p><a href="#">From line 196, column 25; to line 198, column 73</a>  <pre>&lt;a class="nav-link link-text white" href="https://www.google.co.uk/maps/@51.6000733,- 3.3498623,18z?hl=en-GB&amp;authuser=0" Alt="Address" target="_blank" rel="noopener"&gt;7 Fay</pre></p> <p>Attributes for element a:</p> <p><a href="#">Global attributes</a>  <a href="#">href</a> — Address of the <a href="#">hyperlink</a>  <a href="#">target</a> — <a href="#">Browsing context</a> for <a href="#">hyperlink navigation</a>  <a href="#">download</a> — Whether to download the resource instead of navigating to it, and its filename if so  <a href="#">ping</a> — <a href="#">URLs</a> to ping  <a href="#">rel</a> — Relationship between the location in the document containing the <a href="#">hyperlink</a> and the destination resource  <a href="#">hreflang</a> — Language of the linked resource  <a href="#">type</a> — Hint for the type of the referenced resource  <a href="#">referrerpolicy</a> — <a href="#">Referrer policy</a> for <a href="#">fetches</a> initiated by the element</p>	<p>Alt not required on an &lt;a&gt; element so was removed as was holding a download rather than an image. An additional element &lt;img&gt; was created to hold the image and alt elements.</p>
